Oncology EHR
Chemotherapy Management
Practice Management
Revenue Cycle Management
CureMD is the leading provider of innovative health information management solutions that transform the administrative and clinical operations of healthcare organizations of all sizes.

The award winning CureMD platform delivers complete information and evidence based knowledge when and where required - facilitating informed and effective decision making to improve the quality of care, practice performance and patient experience.

Electronic health records, specialty content, practice management, enterprise scheduling, intelligent billing, workflow management, KPI dashboards, e-Rx, e-Labs, document imaging, clinical knowledgebase, clinical alerts, device / HIE connectivity, patient education, data mining reports and patient portal.

Hosting, implementation, support, backup, security, updates, maintenance, data migration, e-Fax, credit card processing, text messaging, patient statements, transcription, training and consulting.
Optimizing Medical Oncology

Built on our award winning Cloud platform, CureMD Oncology has been designed with unprecedented attention to detail and input from practicing Oncologists. Our cutting edge chemotherapy management module provides comprehensive ordering, administration management and automatic charge capture, synchronizing clinical and administrative workflows.

Improve care quality and productivity using:

- Customizable plan of care
- Decision support
- Order management
- Automated drug dosage calculations
- Provider note templates
- Integrated charge capture
- Flow sheets
- Nurse documentation
- Evidence based chemotherapy regimen library
- Safety alerts
- NCI’s CTCAE adverse event documentation
- Drug utilization forecasting
- Therapeutic class based drug indexes
- Advanced reporting
- Gold Certified e-Prescribing
- PACS / DICOM Imaging
Chemotherapy Ordering, Prep. & Admin.
Required drug volumes are automatically calculated. The system distinguishes between single and multi-dosage vials to determine wastage appropriately.

Clinical Decision Support
CDS monitors changes in factors like BSA and Lab results to detect Hepatic or Renal Dysfunction. Actionable Alerts allow for implementing recommended changes with a single click.

Evidence Based Regimen Library
Standardized order templates are organized based on disease categories and treatment types. Personalized protocols can also be created to address disease complications, patient specific needs and drug replacements.
Charge Capture

Integrated Charge Capture collects all billing information from Chemo documentation along with services such as venipuncture or a saline flush. An NDC Library helps the system generate complete claims ready with modifiers.

Therapy Flow sheets

Integrated flow sheets provide a complete view of all therapy characteristics including historical dosage changes, lab trends and adverse events throughout the treatment life cycle.
CureMD empowers your practice with the flexibility and outreach it needs to thrive in today’s highly competitive practice of medicine - enhancing the value of services to your patients, increasing collections and helping you stay ahead of compliance requirements.

Integrated Practice Management delivers enterprise-grade, customizable features to transform your practice operations. The system provides online access to all the information you need - optimizing coordination, reducing operating expenses, and accelerating collections.

Get Paid Faster

- Personalized dashboards
- Real time insurance eligibility
- Enterprise scheduling
- Electronic claims and payments
- Authorizations and referrals
- Claim rules engine
- Task management
- Enterprise messaging
- Financial closing
- Right-Remit denial management

- Appeal management

99% customer retention
96% claims paid on first submission
15 days insurance turnaround
24/7 access to financial reports
ACI has utilized the CureMD Oncology solution for the past 5 years. The same platform fulfills all of our clinical and administrative needs which makes it indispensable. It is user friendly and streamlines the entire workflow. It is one of the best decisions that we have made.

Omar Atiq, MD, FACP
Arkansas Cancer Institute

Since the software manages all dosage calculations, I can throw the calculator out of the window. Instant Chemotherapy billing has given me my weekends back.

Beth S. Taubes, RN OCN
The Women’s Oncology and Wellness Practice

The best aspect about CureMD is the customer support; they have been friendly and responsive. Our practice has been using CureMD for the past couple of years. The EMR is user friendly and caters to our entire workflow from the progress notes to chemo administrations.

Avalon for iPad
Revolutionary user experience

Bringing groundbreaking research to life, Avalon enhances productivity and the bottom line of your practice.

Forward Thinking

Designed specifically for the iPad, Avalon expedites charting, improves accuracy and ensures portability. It brings together a radical design and an innovative user experience that is rich and intuitive. Avalon provides the power of CureMD EHR in a portable package to provide users an instantly familiar feel with improved mobility.
Why CureMD

- True web-based technology
- Integrated, interoperable and customizable
- Enterprise-grade functionality
- Specialty content and workflow
- Award winning usability
- Meaningful Use Stage 2 Certified
- ICD-10 Ready
- Fast Track implementation
- PQRS / P4P / HEDIS Ready
- Top rated customer support
- Hassle-free maintenance with free upgrades
- 99% uptime guarantee
- HIPAA compliant

Optimize

- Revenue
- Efficiency
- Quality
- Safety

20 years of ambulatory care experience
Interoperability

Designed for next generation interoperability, CureMD enables seamless information exchange across all stakeholders. Connect with:

- Health information exchanges
- Labs for electronic orders and results
- Pharmacies
- Payers
- Radiology / imaging services
- Hospital networks
- Referring providers
- Patients
- Syndromic surveillance agencies
- Immunization registries
- Specialty registries
- Electronic devices
- DICOM compliant imaging equipment
Award Winning Usability

CureMD is highly adaptable and easy to use. It learns from you while you work and mimics your unique style and practice preferences; leading towards effortless documentation and speed.

Cloud Hosted

A low monthly subscription includes hosting, support, upgrades, maintenance, security, and business continuity services; eliminating upfront expenditure on software, hardware and IT administration.

Client Hosted

Larger practices with dedicated IT staff can keep their own server with CureMD installed for local and remote access - keeping data in their own office with greater control and flexibility.

Architecture

CureMD combines proven technologies and industry standards to ensure your infrastructure remains:

- Secure
- Scalable
- Always Available
