KLAS®
ACCURATE. HONEST. IMPARTIAL.

**#1 Ambulatory RCM
Services 2016**

CureMD is a leading provider of an innovative EHR and Practice Management solution that transforms your administrative and clinical operations.

The award winning platform delivers complete information and evidence based knowledge when and where required. This facilitates informed and effective decision making to improve quality of care, practice performance and patient experience.

Electronic Health Records

Featuring a powerful knowledgebase, CureMD is built for usability, performance and reliability. Drive greater collaboration, productivity and patient safety in organizations of all sizes through our integrated approach.

Our technology is specialty specific and template driven to ensure accurate, complete, and efficient documentation. Reduce cognitive overload through our tailored workflows and unique clinical approach designed specifically for your practice.

CureMD simplifies decision making, streamlines operations, and ensures compliance with industry standards and best practices. Save time and maximize value and returns.

- Process higher patient volume
- Improve care quality using standardized treatment plans
- Accelerate collections with online eligibility, patented E&M calculator, electronic billing, clean claim checks and EDI
- Reduce charting time with collaborative care management
- Save time by eliminating redundant data entry with automated information capturing and voice recognition
- Develop patient and condition-specific treatment plans
- Utilize structured data for clinical trials, research and reporting

Specialty Focused

CureMD provides rich clinical content and custom forms through our template library for single and multi-specialty practices. Our point-and-click selection and capability to easily import prior visits ensures effective and high quality care delivery. Utilize voice recognition to further expedite your encounter documentation and order processing.

Award winning usability, workflow editor, template designer and other customization tools support your unique style, preferences and priorities.

“

CureMD offers a very powerful program as it collaborates EHR with billing in a way that I never imagined.

It is really an All-in-One Solution as I am able to look after my practice like never before.

Dr. Josephine Huang

Josephine Huang, PLLC

CureMD stands out from the rest due to their cloud-based service and usability.

It was very important for us to have patient data available across our six centers.

They have brilliant support and they are available whenever we need them.

Dr. John Muney

AMG Medical Group

CureMD has made my practice more efficient and hassle free. For 8 years, I've found their solution to be the best. I can submit claims for the day with just a click which has made my life a lot easier.

Dr. Elizabeth Lee-Ray

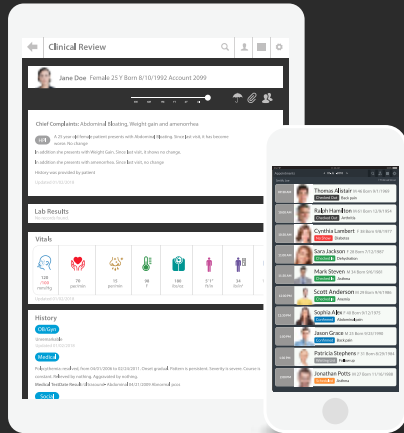

Eastchester Medical Associates

Interoperability

Designed for next generation connectivity, CureMD enables seamless exchange of information across all stakeholders. Connect with:

- Health information exchanges
- Labs for electronic orders and results
- Pharmacies
- Payers
- Radiology / imaging services
- Hospital networks
- Referring providers
- Patients
- Syndromic surveillance agencies
- Immunization registries
- Specialty registries
- Electronic devices
- DICOM compliant imaging equipment
- Third party systems

Award winning usability

CureMD is highly adaptable and easy to use. It learns from you while you work and mimics your unique style and practice preferences.

SMART Cloud

A low monthly subscription includes hosting, support, upgrades, maintenance, security and business continuity services. This eliminates upfront expenses on software, hardware and IT administration.

Client Hosted Cloud

Large practices with dedicated IT staff can keep their own server with CureMD installed for local and remote access. Host your own data with greater control and flexibility.

SaaS Architecture

CureMD combines proven technology, industry standards and best practices to ensure your infrastructure remains:

- Secure
- Scalable
- Always Accessible

MIPS/MACRA Guarantee

CureMD guarantees to meet the criteria for MIPS/MACRA. If we don't, we will waive up to 12 months of software subscription fee.

Security & Privacy

CureMD employs advanced security and certified business continuity systems that prevent data loss while keeping your information secure, private and accessible.

- Access authorization
- Activity monitoring
- Role based access control
- Audit trail
- Release of information
- 256 bit SSL encryption

Patient Safety

For quality, safety, security and interoperability, CureMD supported initiatives include:

- Leapfrog
- NCQA
- EHNAC HNAP-EHN Accredited
- EHR Security
- JCAHO
- ISO 27001:2005 Certified
- QualityNet
- DOQ-IT
- ISO 9001:2008 Certified
